

ASSEMBLY BILL

No. 2916

Introduced by Assembly Member Nunez

February 22, 2008

An act relating to state buildings.

LEGISLATIVE COUNSEL’S DIGEST

AB 2916, as introduced, Nunez. State buildings: energy efficiency measures.

Existing law, the State Building Construction Act of 1955, requires all public buildings constructed after January 1, 1993, to be designed, constructed, and equipped with all efficiency measures, materials, and devices that are cost effective and feasible. The act also requires the Department of General Services to revise leases used by the state to maximize energy savings in buildings leased by the state.

This bill would declare the Legislature’s intent to require that all buildings owned or leased by the state meet the standards of the United States Green Building Council’s Leadership in Energy and Environmental Design.

Vote: majority. Appropriation: no. Fiscal committee: no.
State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. It is the intent of the Legislature that all buildings
2 owned or leased by the state comply with the standards set forth

- 1 in the United States Green Building Council's Leadership in
- 2 Energy and Environmental Design gold green building standard.
